SUMMARY

Computer Engineering student with growing expertise in programming, networking, and cybersecurity. Experienced in Python development, Linux systems, and web technologies. Passionate about understanding system vulnerabilities, network security, and building secure applications. Currently expanding skills in full-stack development and cybersecurity analysis.

EDUCATION

National Academy of Science and Technology (NAST) <i>Bachelor of Computer Engineering</i>	Oct 2022 – Aug 2026 <i>Nepal</i>
Aishwarya Vidya Niketan Secondary School <i>+2 Science (Mathematics)</i>	2020 – 2022 <i>Nepal</i>
Aishwarya Vidya Niketan Secondary School <i>SEE Level Computer Science</i>	2018 – 2020 <i>Nepal</i>
Himal Academy Dhangadhi <i>BLE Level</i>	2010 – 2018 <i>Nepal</i>

PROJECTS

Old Book Store Web Application Python, Flask, MySQL	2025
– Developed a web-based platform for buying and selling second-hand books. – Implemented backend using Flask and integrated MySQL database for book listings and user data. – Built features for book search, user management, and inventory tracking. – Designed responsive interface for efficient browsing and management of book listings. – GitHub Repository: github.com/birendrachy7/Old-Book-Store	

SKILLS

Programming Languages: Python, Java, C

Web Development: HTML, CSS, JavaScript, React

Tools & Technologies: Git, GitHub, Linux, MySQL, Flask

Cybersecurity & Networking: Network Security Fundamentals, Linux Systems, Basic Security Analysis

CERTIFICATIONS

- Programming with Python 3.X
